**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I've chosen Sonic to provide fiber internet to my home because of their superior service and lower price. If internet is not going to be provided as a utility, we need competitive providers like Sonic. It isn't helpful to consumers to be stuck between major providers that hold us hostage to their high prices, substandard technology, and poor customer service. I support broadband competition to keep the markets focused on providing consumers with the best service at the best prices. Without it, there's no incentive to innovate and the larger providers will be allowed to monopolize and become complacent. Which tends to push prices up and service down.

Please keep telecom competitive!

Thank you,

Lukas Andersen
